INNOVATION

Quality matters to us as much as it matters to you. We invest in our technology and equipment to provide our customers with products that will last.

LEADING THE INDUSTRY

Diamond Kote® Building Products is an industry leading brand of pre-finished engineered wood siding products. An advanced paint technology provides lasting durability backed by a 30-Year No Fade Warranty.

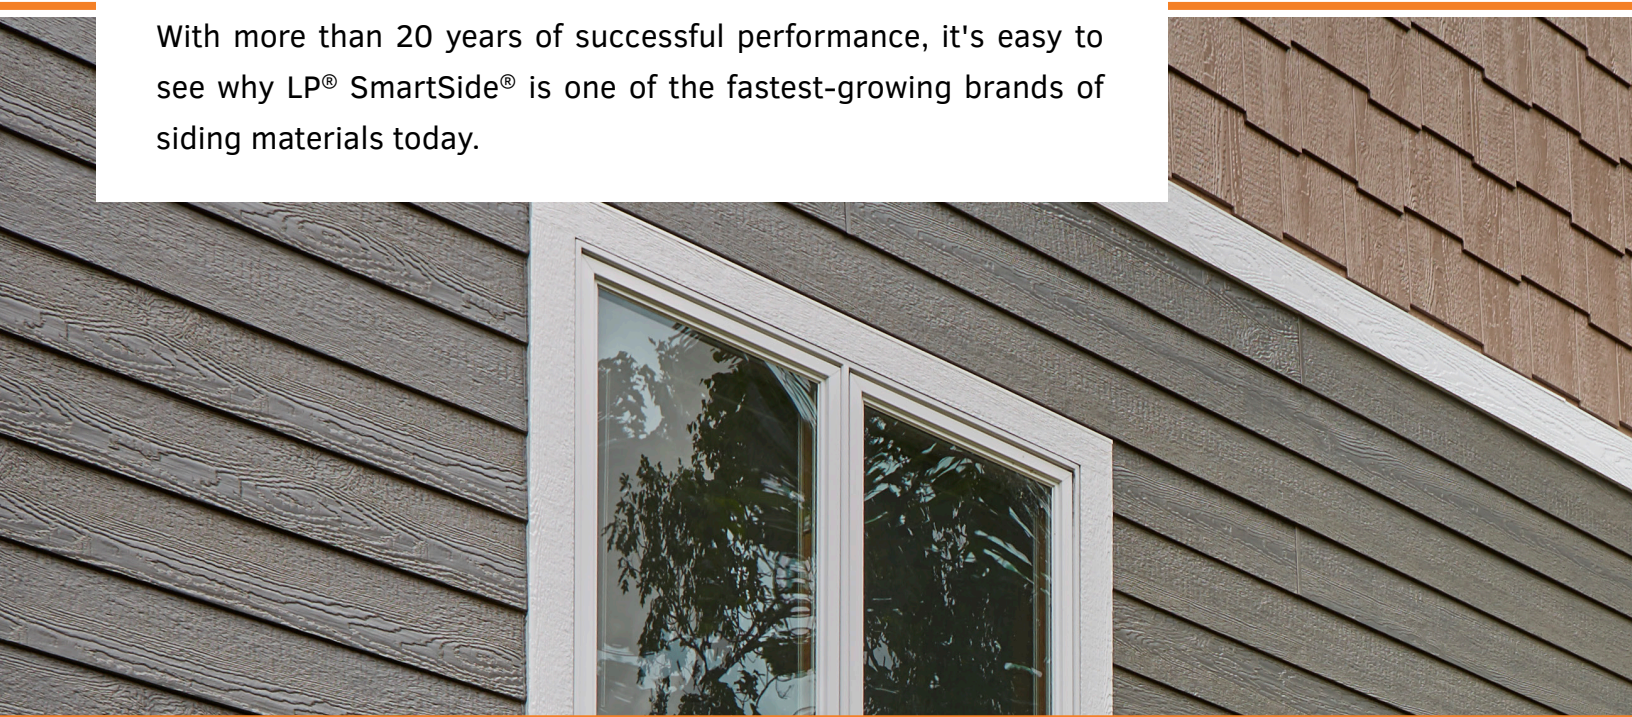

SIDING SOLUTIONS

We created a siding system which hides nail heads, eliminates blemishes and offers a more efficient installation. The end result is a flawless finished product that protects your home with ultimate performance.

With more than 20 years of successful performance, it's easy to see why LP® SmartSide® is one of the fastest-growing brands of siding materials today.

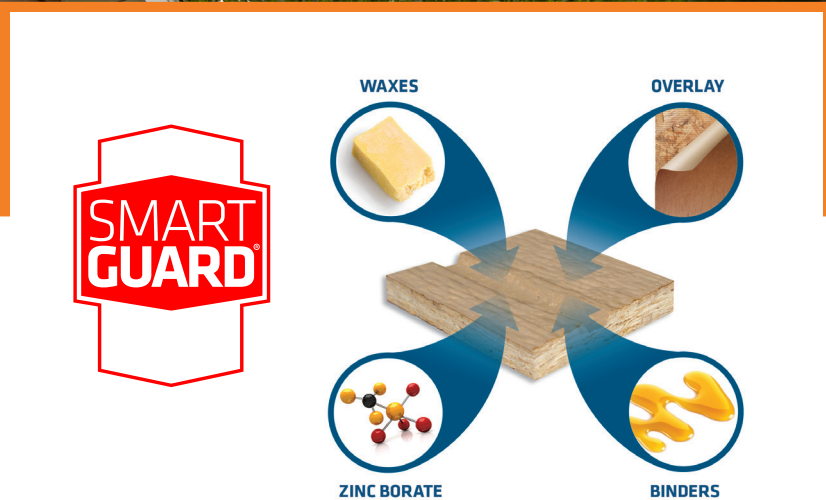

GREAT WARRANTY

LP® has your back with an industry-leading warranty that offers exceptional peace of mind for your home. A 5/50-Year Limited Warranty that provides a 5-year, 100% labor and replacement feature and a 50-Year Prorated Limited Warranty on the product. Visit LPSmartSide.com for complete warranty details.

STRENGTH AT THE CORE

Homeowners can trust LP® SmartSide® products to resist impact from airborne debris and gain even more peace of mind with a warranty that covers damage from hail, up to 1.75" in diameter.

EXTRA PROTECTION

SmartGuard® helps LP® SmartSide® products withstand extreme temperatures, heavy humidity, arctic freeze thaws and everything in between. This process treats to the core with four components of protection that add strength and resist fungal decay and termites.

RENEWABLE RESOURCE

All products are made with wood, a renewable resource, grown and gathered under strict Sustainable Forestry Initiative® standards. Plus, all binding agents and resins are low-emitting.

DIAMOND KOTE®

Pre-finish

FORMULATED FINISH

Diamond Kote® pre-finish is an advanced paint technology, which uses the purest metal oxide colorants extracted from rocks. These natural raw pigments don't fade over time, will keep your siding vibrant and protected from destructive Ultraviolet sun rays which causes synthetic tints to fade quickly.

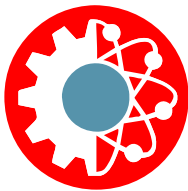

A side-by-side microscopic comparison of two surface finishes. The left side, labeled 'Diamond Kote', shows a smooth, uniform green surface. The right side, labeled 'Other Finishes', shows a rough, porous, and uneven green surface with visible pits and irregularities.

Diamond Kote®

Other Finishes

SHOWN UNDER 40X MAGNIFICATION

QUALITY PAINT MATTERS

Under 40x magnification, there are significant differences between the Diamond Kote® pre-finish and other finishes. Other finishes are porous, resulting in a dull finish that traps dirt and moisture and can lead to premature failure.

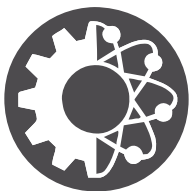

LOW MAINTENANCE

Diamond Kote® pre-finish is designed to be low maintenance, resisting the build up of dirt and grime while locking out moisture. Being easy to clean, combined with a durable finish reduces overall maintenance.

DIAMOND KOTE®

Technology

SUPERIOR MANUFACTURING

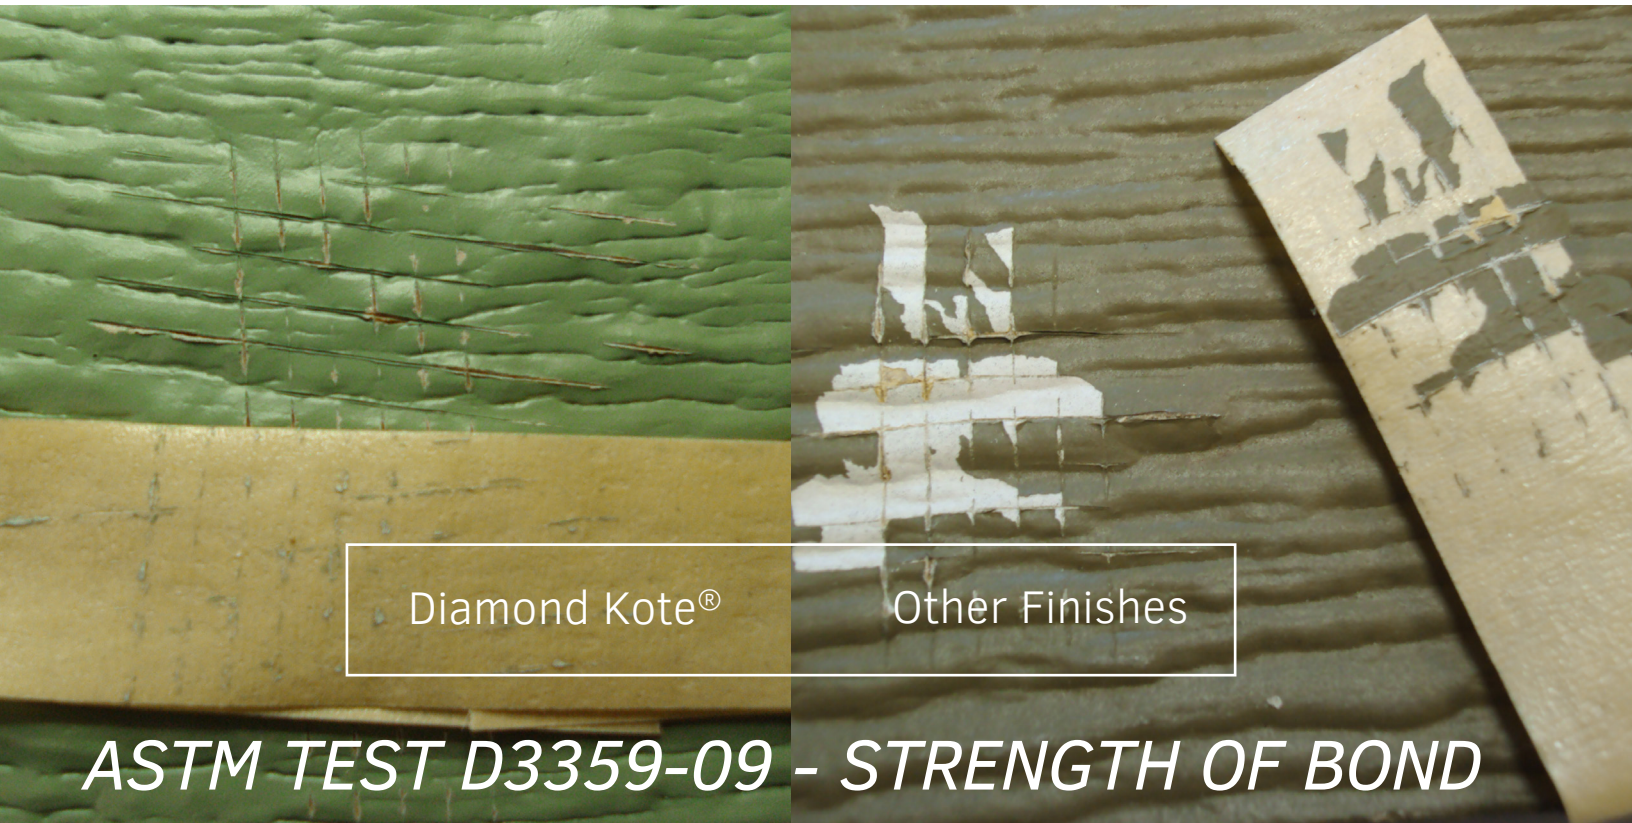

Our fully automated process with robotic sprayers, advanced finish and a clean indoor environment creates a quality scratch resistant product that cannot be duplicated on site or with flood coating applications.

**“DIAMOND KOTE IS
TRULY THE SUPERIOR
FINISHED SIDING
PRODUCT ON THE MARKET!”**

-Thompson Construction

**“LP SMARTSIDE WITH
DIAMOND KOTE FINISH IS
THE BEST SIDING PRODUCT
I HAVE WORKED WITH.”**

-Jim Langendorf
Langendorf Construction LLC

Diamond Kote®

Other Finishes

ASTM TEST D3359-09 - STRENGTH OF BOND

ENHANCED DURABILITY

ASTM Test D3359-09 tests the bond strength between the substrate and paint. The industry standard states if 20% or less paint is removed from the substrate it passes the test. Diamond Kote® exceeds beyond the standard.

Note: ASTM D3359-09 Standard Test Methods is for Measuring Adhesion by Tape Test

LONG TERM PERFORMANCE

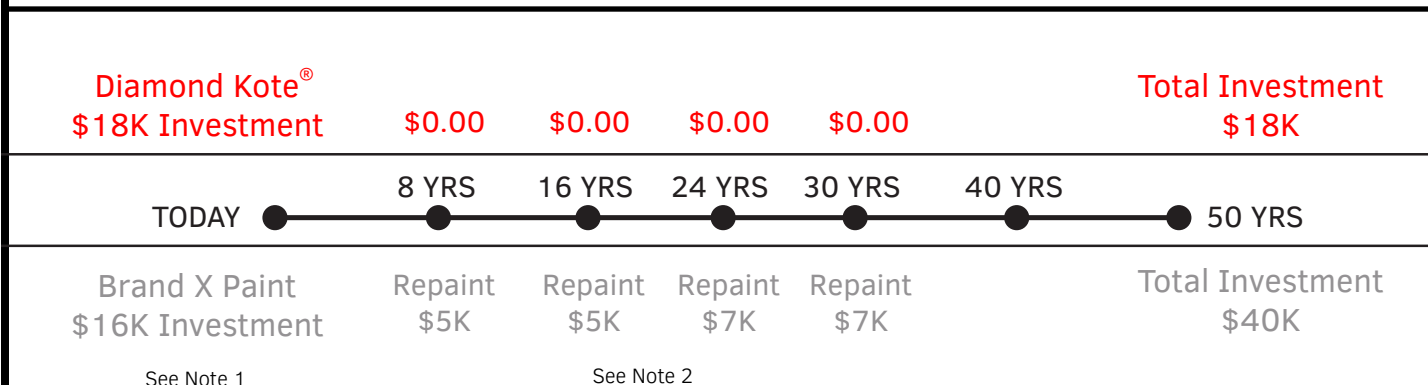

We design and test all of our products for maximum protection against the elements. Enjoy a durable scratch-resistant finish that withstands the test of time with no peeling, chalking or fading.

FEEL COMFORT EVERY TIME
YOU PULL IN THE DRIVEWAY.

INVEST TODAY SAVE TOMORROW

Other prefinishers use standard exterior house paint which requires periodic maintenance and recoating of the exterior siding. A **minimal investment in Diamond Kote® pre-finish today will save you tens of thousands of dollars in repainting costs.**

Note 1: Competitive finish costs vary by brand and region.

Note 2: Repainting costs vary greatly based off number of colors, size of your home, etc.

ADVANTAGES OF DIAMOND KOTE® PRE-FINISH

- 1 PRE-FINISH LASTS LONGER
- 2 CONSISTENT PAINT COVERAGE
- 3 REDUCES MAINTENANCE
- 4 ENHANCES DURABILITY
- 5 YEAR ROUND INSTALLATION
- 6 ECO-RESPONSIBLE
- 7 INCREASES HOME VALUE
- 8 INSTANT CURB APPEAL
- 9 DISTINCTIVE COLOR OPTIONS
- 10 BACKED BY A 30-YEAR NO FADE
FINISH WARRANTY

INDUSTRY LEADING WARRANTY

DIAMOND KOTE® PRE-FINISH

We back our factory-applied Diamond Kote® finish with a **30-Year No Fade Limited Warranty**, which includes 15 years of labor coverage with the first seven years at 100% value.

DIAMOND KOTE® SIDING SYSTEM

The entire Diamond Kote siding system is also backed by a **5/50-Year Limited Warranty** that includes a 5-year, 100% labor and replacement feature and a 50-Year Prorated Limited Warranty on the material.

Visit dksiding.com for more details.

DIAMOND KOTE®

Pre-finish

CREATE YOUR **FOREVER** HOME

With 30 standard colors to choose from and the ability to do custom color matches, Diamond Kote® pre-finish can help make your home as unique as you are. Below are some considerations that can help you with choosing colors.

TIMELESS NEUTRALS

White

Biscuit

Sand

Tan

Oyster Shell

Light Gray

STYLE TIPS

- 1 *Color combinations with lighter trim will highlight your windows.*
- 2 *Darker trim and lighter siding can create interest when no mature landscape is present.*
- 3 *Match your trim to the mortar of the brick or stone on your home.*

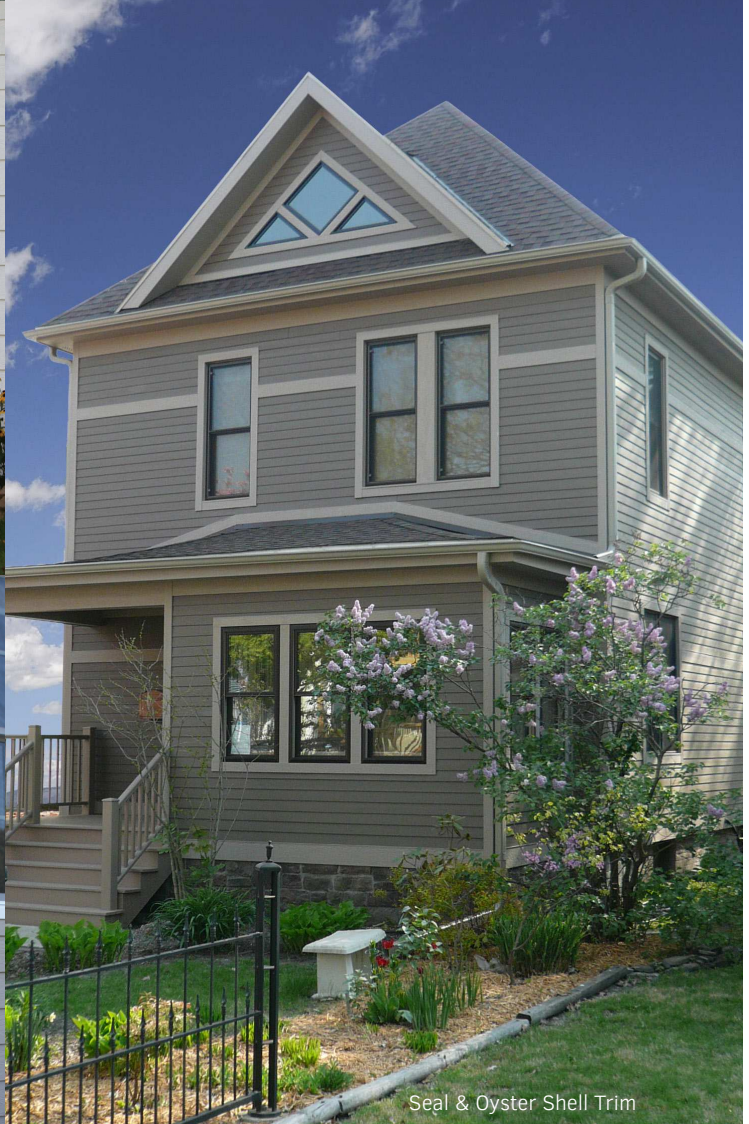

Light Gray & White

White

Oyster Shell & White Trim

Seal & Oyster Shell Trim

NATURE INSPIRED

Clay

Platinum

Pewter Green

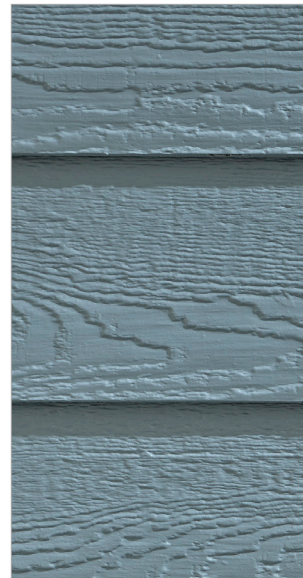

Seal

Olive

French Gray

Mountain Lake

Olive & White Trim

STYLE TIP

Build an exterior color palette that will tie fixed or permanent elements together. Look at the undertones in these elements to help pick complementary colors.

French Gray, Seal & White Trim

Mountain Lake & White Trim

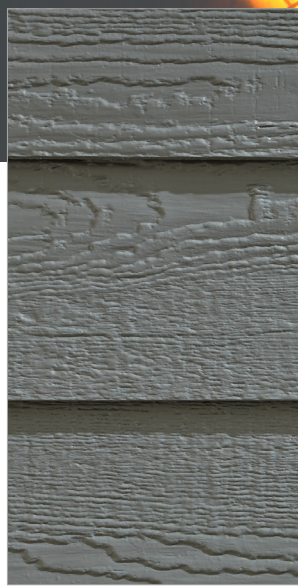

DRAMATIC BOLDS

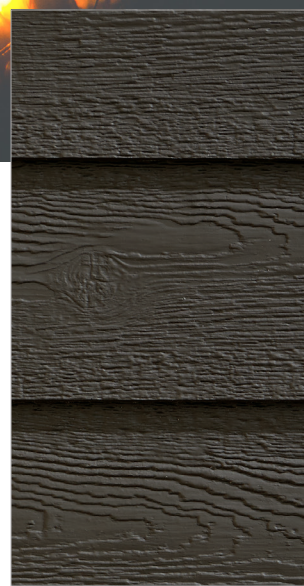

Terra Bronze

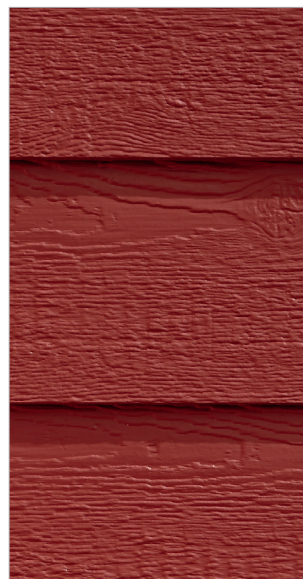

Pelican

Smoky Ash

Coffee

Cinnabar

Chocolate

Chocolate & White Trim

STYLE TIPS

Using bold colors for the body of the siding can create a warm personalized feel.

Darker colors on the trim will outline and call attention to the frame of the house.

Pelican & White Trim

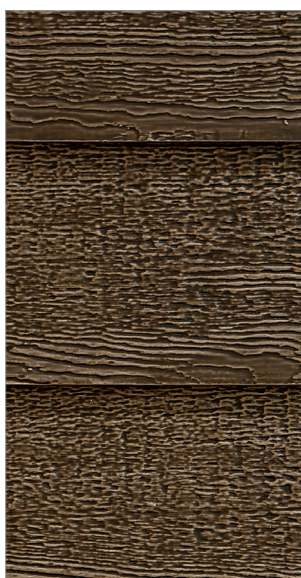

Cinnabar & Sand Trim

DUOBLEND PREMIUM

STYLE TIPS

Think about what secondary color would best enhance your home by looking at the undertones of the primary color.

Use a DuoBlend look for added warmth.

Elkhorn

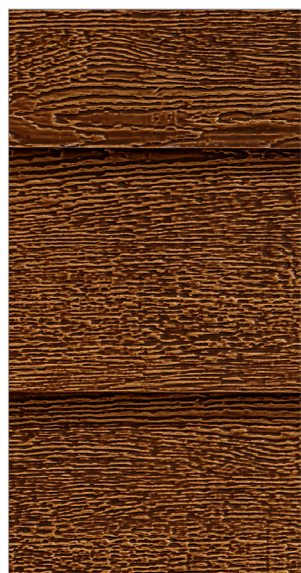

Bedrock

Grizzly

Chestnut

Canyon

Mahogany

Note: Due to the limitations of the printing process, actual color may vary from the color shown. Refer to a sample for accurate color. This collection is pre-finished on RigidStack™ Siding and not all siding components are available.

READY TO RESIDE

"Our vinyl siding was only 11 years old, it had faded and cracked making it look like it was 3 times that old. After we pulled some of it off the house, we found several areas of structural sheathing rotted." – *Kellie C, Homeowner*

DIAMOND KOTE® DIFFERENCE

"We choose Diamond Kote because of the rich look of traditional wood siding along with the 30-Year No Fade Finish. Our home looks so much better than before!" - *Kellie C, Homeowner*

Kellie chose Diamond Kote® French Gray RigidStack™ Siding, Seal RigidShakes and White Trim all backed by a 30-Year No Fade Finish. 31

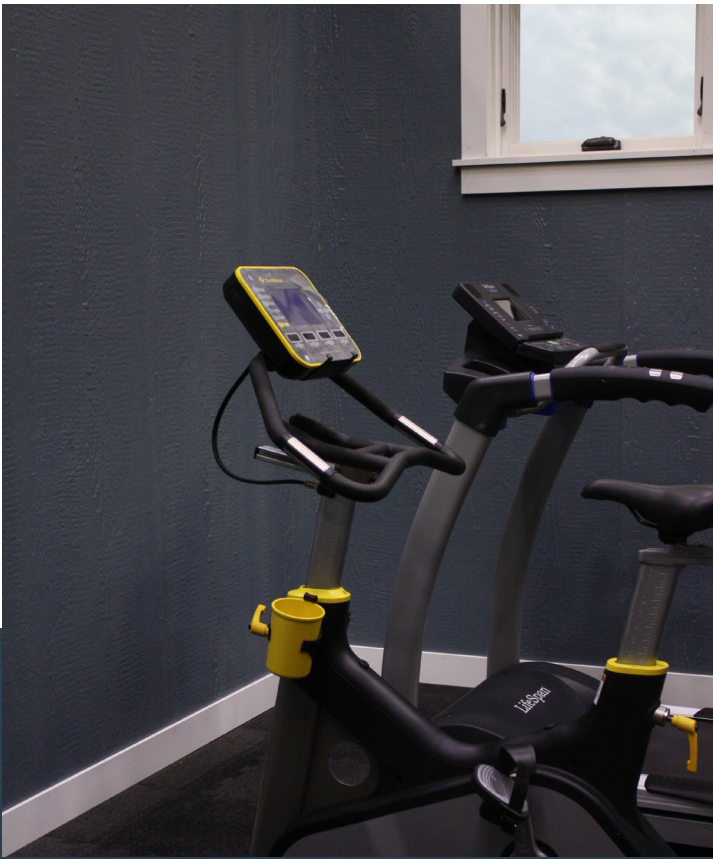

DIAMOND KOTE®

Interior Accents

Do you look at a room in your home and know that something is missing? All the components of a complete design are there – color scheme, furniture, décor – but the entire room just feels a little flat. Add Diamond Kote® Siding as an interior accent to the inside and draw attention back to the room.

DIAMOND KOTE[®]

Siding System

COMPLETE SYSTEM

DESIGN, FORM & FUNCTION

Choose a complete siding system designed to work together for lasting durability. We offer an array of design and styling options to turn your dream home into a reality.

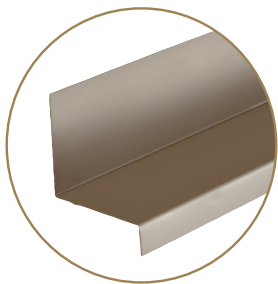

WE'VE GOT YOU COVERED

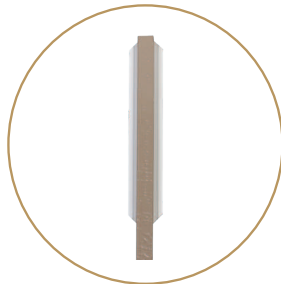

ADDED SECURITY MEASURES

Invest in your home and add a series of siding components to provide the best defense against water penetration while maintaining warranty parameters.

Request that your contractor use the weatherproofing package below!

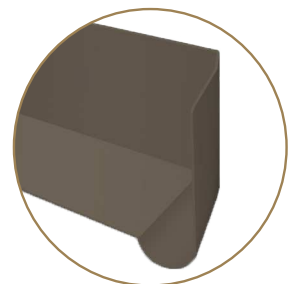

Drip Cap

H-Molding

Coil Stock

Diverter Flashing

LAP SIDING

ENHANCE YOUR CURB APPEAL

Upgrade your home with a deep woodgrain texture that looks like real wood.

RESISTS IMPACT

NASA testing of LP® SmartSide® siding has shown that it resists impacts from baseballs, golf balls, river rocks, and marbles traveling at high speeds. Watch the impact video on our YouTube Channel.

LONGER LENGTHS = FEWER SEAMS

Be proud of your home with engineered lap siding. Longer 16 foot lengths equals fewer seams versus using shorter vinyl or fiber cement products. Other installation practices can result in unattractive seams. Request Diamond Kote® color matching H-Moldings for your home.

RIGIDSTACK™ SIDING

STRONGER SIDING

RigidStack™ Siding is designed with a spline to stack and lock together, plus all the benefits of lap siding.

STACKS FOR PERFORMANCE

As pieces are stacked, they form an extremely strong system. This bond is up to 375% stronger than regular lap siding.

WEATHER THE STORM

Loose siding can make a flapping noise in windy conditions. Choose RigidStack™ with extreme strength to protect against coastal winds and damage from hail, up to 1.75" in diameter in all regions.

RIGIDSHAKE™

ELEVATE YOUR STYLE

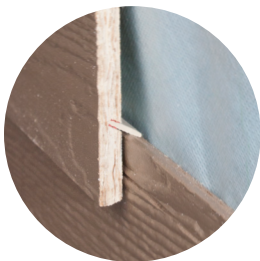

Diamond Kote® Siding System includes a family of distinctive shakes to help enhance your home's architectural elements.

French Gray & White Trim

Biscuit

BUILT TO PROTECT

Using the same technology as RigidStack™ siding and built on the same durable substrate for a low maintenance design that lasts longer than real cedar shingles.

CHOOSING THE RIGHT DESIGN

It's important to think about the style, architecture, and time period of your home. Cape Cod and Colonial style homes use a straight edge shake, while a Craftsman style home would typically use a staggered edge shake.

Note: RigidShake™ is exclusively available in straight and staggered edge shakes.

HISTORIC COLLECTION

REVIVE THE PAST

Highlight the historical look of your home with a classic feel featuring timeless designs.

Biscuit, Pewter Green & Biscuit Trim

Olive & White Trim

Biscuit & Cinnabar Trim

CAPTURE A PERIOD IN TIME

Victorian homes became popular in the mid 1800's and typically featured decorative Scallop shapes. Choose the look of an era and say goodbye to the expensive up keep with this low maintenance option.

STORYBOOK LOOKS

Neatly sculpted rows of gable ends, dormers and other architectural features come to life with Octagons.

PANEL SIDING

ADDING TEXTURE

Create visual interest with texture or vertical accents to accentuate and make your home appear larger with more dimension.

BOARD AND BATTEN

Emphasize the vertical areas on the exterior to create a rustic farmhouse inspired home. Varying the width of the trim with different sizes or spacing can create a variety of styling options.

GROOVED PANELING

This vertical siding style adds interest giving it a taller appearance to the home, drawing the eye upward. Choose from two different widths to customize the look to your home.

Style tip: 8 inch on center panels complement wider facades verses 4 inch on center panels.

"STYLE IS A
WAY TO SAY
WHO YOU
ARE WITHOUT
HAVING TO
SPEAK."

- Rachel Zoe,
Designer

PROTECTIVE TRIM SYSTEM

CATCH YOUR EYE

Our protective trim system offers solutions that deliver value for both builders and homeowners. Accent your home with trim without drawing your eye to the wrong places, such as nail heads or bad touch up.

NAIL FIN TRIM

Trim with nail fin is designed to enhance the look around windows, doors, and gables while concealing fasteners for a flawless appearance to your home.

NAIL FIN OUTSIDE CORNER

We offer a 4 inch and 6 inch widths giving you design options while eliminating the need to face nail. Face nails lead to touch up painting and other maintenance issues.

STYLE TIP

Set yourself apart from the neighborhood! Add Rosettes to your trim and highlight unique characters of a Victorian style home. pg. 50

NAIL FIN INSIDE CORNER

Complete your trim package by choosing a color coordinated inside corner, which typically matches the siding color.

ARCH TRIM

Bring arched windows or entry ways to life with a seamless design that will perform better against water intrusion. Accent with an optional keystone to draw more attention to the architectural style of your home.

SOFFIT + FASCIA

PROTECT YOUR INVESTMENT

A significant body of research has revealed that 47% homes in the U.S. do not have proper ventilation.

Lawrence Berkley Laboratory

POWER OF PROBLEMS

Poorly ventilated homes contribute to higher energy costs and moisture problems. Moisture build up could lead to mold or mildew, which may lead to respiratory issues.

SOLUTION: PROPER VENTILATION

Our solution is to provide a product with a high (net free air) rating of 10 NFA to work with your roofing vent system. Commonly used vinyl and cement systems only average 5-7 NFA which may not meet roof warranty standards.

White Trim

Tan & Biscuit

TOP IT OFF RIGHT

Create a dramatic effect by finishing your overhangs, porch, and ceilings with the same woodgrain look. Be the talk of the block with a soffit that is as distinctive as the siding.

STRONGER & THICKER PRODUCT

Thin metal fascias are easily damaged by hail and storm debris or could blow off in the wind. Just like our siding, our fascia resists impact and can hold up against the damaging effects of mother nature. Choose a whole siding system with matching woodgrain for a high end feel.

RIGIDMOUNT™

DON'T LEAVE IT TO CHANCE

Why risk a contractor fabricating these in the field, when RigidMount™ offers an exclusive line of mounts built on LP® SmartSide® for all your needs.

KEEP WATER OUT

Pipes and utilities penetrate the home for everyday functions - water should not. RigidMount™ includes built-in water management and nail fin for a flawless look.

INTEGRATE STYLE & FUNCTIONALITY

Choose a professional product that will blend into your exterior and feel the satisfaction of a job done right. Insist on using RigidMount™ blocks for your home.

STARTER BOARD

PERFECT TRANSITION

Providing the perfect transition between the ground and first course of siding to maintain installation requirements.

PLAN FOR PROTECTION

Don't dig up your prized landscaping after all your hard work. Using starter board helps protect the bottom of your siding from moisture. New homes can benefit as well, so any future landscaping plans don't impose on your siding.

BEAUTY FROM THE GROUND UP

Call out the frame of your home by making your starter board the same color as your trim. Otherwise, for a more subtle transition match the starter to your siding.

DIAMOND KOTE®

Exterior Accents

STYLE YOUR WAY

Each home is unique - just like each family. Show your style by adding decorative elements to the outside of your home for a distinctive and personalized touch.

PRO-POST WRAP™

MAKE A STATEMENT

Set the stage with a grand entrance for your home and upgrade old peeling posts with a new Pro-Post Wrap™, or add finishing touches to a deck by wrapping pressure treated posts.

GRAND ENTRANCE

First impressions are everything. The wood-look and near seamless appearance of Pro-Post Wrap™ help to add style and value to your home. It makes an incredible difference to your home's look.

OUTDOOR LIVING

Leave the neighbors talking after your next barbecue with how stunningly beautiful your home looks. Whether used underneath a deck, on a porch, or outdoor living space, Pro-Post Wrap™ can provide an unforgettable impression on your home.

ROSETTES

CREATE A UNIQUE LOOK

Consider a decorative trim accent to highlight your windows and doors. Transform your home exterior from simplistic to elegant.

Sand & Coffee Trim

AUTHENTIC LOOK & FEEL

Enhance the era of your home with Rosettes that provide high definition curves and a traditional design.

IT'S ALL IN THE DETAILS

Stand out of the crowd by adding an extra touch of style with historical accuracy and architectural elements to bring your exterior to life.

PERSONALIZED RIGIDMOUNT™

UNBEATABLE LOOK

Make your house numbers be as distinctive as your home's siding with the Personalized RigidMount option. Nothing will match your home better!

Coffee & Sand Trim

PERSONALIZE YOUR HOME

Choose from up to five characters (letters or numbers) routed in either black or white. Personalized RigidMount blocks are built on LP® SmartSide® and blend flawlessly with any color siding, even custom colors!

INTEGRATE STYLE & FUNCTIONALITY

Personalized RigidMount blocks includes a built-in water management, which helps reduce the risk of moisture intrusion and a nail flange for a finished look with no sightly nail heads.
